SEGRET

	the border controls at SCHOENEFELD were normal and only personal
	identification documents were checked.
	the population in the vicinity of WEISSENFELS and 50X1-HUM
	NAUMBURG is very disturbed about the Soviet note on Berlin Berlin
	and the resulting situation; generally, it is feared that differences will
	arise which could lead towar.
	In the case of the troops stationed in WEISSENFELS, no overtly
	apparent changes could be determined. The Soviets (officers and men)
	continue to have leave, sit frequently in restaurants (rarely in dance halls),
6	but are behaving quietly. 50X1-HUN
	a transport arrived in WEISSENFELS
	by rail (place of origin unknown) and was unloaded. The transport
	included 15 (YA-12 or 13 prime movers) tracked vehicles, 4 trucks and
	200 officers and men, who were stationed in the SELAUER Strasse barracks.
	Other than the above, unable to observe any arrivals or departures
	of troops.
	no Soviet airfield
	was located near WEISSENFELS; the nearest field is at MERSEBURG and
	houses jet fighters (types and number not known). 50X1-HUM
